## MANAGEMENT DISCUSSION & ANALYSIS

### INDUSTRY STRUCTURE:

The Textiles Industry is facing the impact of slow global recovery in exports and in the domestic front too, severely affected with the steep increase of raw material prices of cotton by over 100% during the year.

As such, the outlook appears to be bleak unless the pressure is eased on cotton prices with a normal monsoon and increased spending by consumers.

### OPPORTUNITIES & THREATS:

With the Global Economic recovery expected to end over next few quarters, the general opinion is of improved market conditions.

The domestic market is also expected to witness a reasonable growth with increased disposable income, especially among the middle class and also in the areas of hotels and hospitals.

The Company is taking initiatives to end the stalemate of illegal strike by the workmen and re-start the production, so as to tap the opportunity both in export and domestic markets.

### INTERNAL CONTROL SYSTEMS AND ADEQUACY:

The Company has proper Internal Controls in place for safeguarding all its assets from unauthorized use or disposal. Adherence to Internal Control Systems is ensured by detailed Internal Audit program so that the assets are correctly accounted for and the business operations are conducted as per laid down policies and procedures. However, the continued illegal strike since December 2008, by the workmen is an impediment for carrying out such internal control effectively for the time being.

The Company has an Audit Committee of the Board of Directors, which meets regularly to review, *inter alia*, risk management policies, adequacies of internal controls and the audit findings on the various functions of different segments of the business.

### HUMAN RESOURCES:

The Company is optimistic to solve the current labour problems affecting the production. The Company is deliberating policies benefiting both workers as well as all the stakeholders of the Company at the earliest possible.

### HEALTH AND ENVIRONMENT:

Your Company recognizes environment protection and management as one of its highest priorities and every effort is made to conserve and protect the environment. The Company has been involved in ensuring green surroundings in its industrial location.

### CAUTIONARY STATEMENT:

Statement in this Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be 'forward-looking statements' within the meaning of applicable Securities Laws and Regulations. Actual results could differ materially from those expressed or implied.

The Company assumes no responsibility to publicly amend, modify or revise any forward looking statements, on the basis of any subsequent development, information or events or otherwise.
